INGREDIENTS

Monocalcium phosphate, dicalcium phosphate, salt, calcium carbonate, brewer's dried yeast, dried *Saccharomyces cerevisiae* fermentation product, processed grain by-products, zinc sulfate, molasses products, copper sulfate, vegetable oil, manganese sulfate, magnesium oxide, vitamin A supplement, vitamin D supplement, ethylenediamine dihydriodide, copper chloride, sodium selenite, vitamin E supplement, cobalt carbonate, calcium iodate, anise flavor

WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

This product has been formulated specifically for beef and is not intended for other species.

FEEDING DIRECTIONS:

Stockmaster Sweet Phos 12 Cu with Bio-Mos is formulated to be fed to beef cattle on range or pasture at approximately 2-4 ounces per head per day. If Stockmaster Sweet Phos 12 Cu with Bio-Mos is offered free choice it should be introduced gradually over a 14 day period. Offer 2 to 4 ounces per head per day during this period to avoid over consumption.

Early lactation cows may desire more salt than that provided by Stockmaster Sweet Phos 12 Cu with Bio-Mos. Offer free choice loose salt along with the mineral to cows in early lactation.

Stockmaster Sweet Phos 12 Cu with Bio-Mos intakes will vary. Mineral consumption rates should be estimated on a monthly basis. If intakes are greater than 4 ounces per head per day more salt should be offered either free choice or mixed with the mineral. If intakes are less than 4 ounces per head per day the amount of salt offered should be decreased. Provide fresh clean water at all times.

Supplemental mineral requirements of cattle vary by region, forage quality and season. Individual animal requirements may vary due to age, size, stage or growth or milk production. Please consult your Hubbard Feeds Inc. representative if you have questions about mineral supplementation.

Bio-Mos is a registered trademark for Alltech, INC. Biotechnology Center, Corporate Headquarters, 3031 Catnip Hill Pike Nicholasville, KY 40356.

Hubbard does not use "Restricted-use Proteins" in their products and is in compliance with FDA and state requirements regarding the use, handling and storage of "Restricted-use Protein" products.

Net Weight 50 lb (22.68 kg) or bulk invoice.
