INGREDIENTS

Monocalcium phosphate, dicalcium phosphate, calcium carbonate, salt, sodium bentonite, processed grain by-products, copper sulfate, copper chloride, zinc sulfate, manganese sulfate, ethylenediamine dihydriodide, calcium iodate, cobalt carbonate, vitamin A acetate, vitamin D supplement, vegetable oil, molasses products, magnesium oxide, magnesium sulfate, potassium sulfate, sodium selenite, vitamin E supplement, natural & artificial flavors.

WARNING: *This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper. This product has been formulated specifically for beef and is not intended for other species.*

FEEDING DIRECTIONS:

Sweet Phos 8 Cu is formulated to be fed to range or pasture cattle at approximately 2-4 ounces per head per day. If Sweet Phos 8 Cu is offered free choice it should be introduced gradually over a 14 day period. Offer 2 to 4 ounces per head per day during this period to avoid over consumption.

Early lactation cows may desire more salt than that provided by Sweet Phos 8 Cu. Offer free choice loose salt along with the mineral to cows in early lactation.

Sweet Phos 8 Cu intakes will vary. Mineral consumption rates should be estimated on a monthly basis. If intakes are greater than 4 ounces per head per day more salt should be offered either free choice or mixed with the mineral. If intakes are less than 4 ounces per head per day the amount of salt offered should be decreased.

Provide fresh clean water at all times.

Supplemental mineral requirements of cattle vary by region, forage quality and season. Individual animal requirements may vary due to age, size, stage or growth or milk production. Please consult your Hubbard Feeds Inc. representative if you have questions about mineral supplementation.

Hubbard does not use "Restricted-use Proteins" in their products and is in compliance with FDA and state requirements regarding the use, handling and storage of "Restricted-use Protein" products.

Net Weight 50 lb (22.68 kg) or bulk invoice.
