November '10 Soybeans and **December '10 Corn** charts showing price trends over time.

Diversified Services

A Company of **CGA** Enterprises, Inc.

Diversified Services is an equal opportunity provider.

November '10 Soybeans
 The soybean market has had the best start to the year since 2007. The price has risen from a low of \$10.00 in August to a high of \$13.60 in September. This is due to a combination of factors including a strong start to the harvest, a tight global supply, and a strong demand for soybeans.

December '10 Corn
 The corn market has also seen a strong start to the year. The price has risen from a low of \$4.00 in August to a high of \$4.47 in September. This is due to a combination of factors including a strong start to the harvest, a tight global supply, and a strong demand for corn.
